#### SUBJECT: LETTER OF REFERENCE - ACCREDITED DANGEROUS GOODS (DG) & HEAVY GOODS VEHICLE (HGV) TRAINER

The road transportation of chemicals is a recognized high risk activity for the Chemical Industry. The management of driver training is therefore key in minimizing this exposure.

E-Response, a member of Chemical Industry Council of Malaysia (CICM), is a renowned regional driver training provider of Heavy Goods Vehicle (HGV) for the Oil & Gas Industry.

CICM in collaboration with E Response, have developed and approved a specialised Competency-based Defensive Driver Training module for the training of Dangerous Goods (DG) drivers for the Petrochemical Industry. The driver training module and syllabus have been dosigned with a series of theory, practical and on-the-road assessment protocols which are able to provide competent and knowledgeable safe HGV drivers. Safety results shown so far have been very encouraging.

We thank and recognised E-Response support and efforts, which has been provided to the Council, in the area of Defensive Driver Training development.

We support the Driver Competency Training (DCT) syllabus as an effective Defensive Driver Training syllabus for Dangerous Goods drivers, and approve E-Response as our approved Defensive Driver Trainer.

Responsible Care
