

## COURSE TITLE : LIGHT VEHICLE DEFENSIVE DRIVING TRAINING 4WD (LV-DDT) - ADVANCE

### COURSE OBJECTIVE

The LV-DDT 4WD (Advance) is designed to provide the trainees with the necessary skills and knowledge, to enable a Light Vehicle Driver (4WD) to manage and maneuver vehicle safely. The trainees will also be taught into the proper and comprehensive Vehicle Maintenance procedures and protocols.

The aim of this 4WD training is to improve knowledge and skills in safely operating a four-wheel-drive vehicle in a variety of hazardous conditions and all-weather situations in regional and remote Malaysia. Poor driving habits in a 4WD vehicle can increase your maintenance costs and the consequences can be expensive or even life threatening. This is also to increase the level of advance skill of the 4WD user that can be extremely challenging to carry out the daily task.

Trainees will be assessed on the understanding of new knowledge and the ability to apply the newly acquired skill on the roads.
